

Prime Solutions® Counselor Training Evaluation

(N = 25)

In a pilot test of the Prime Solutions Level I counselor training, 25 counselors answered questionnaires about the experience. We collected this information at the end of the training, which occurred in the Southeast May 31 – June 1, 2013.

Overall, the majority of the attendees (88% or more, depending on the question) reported being pleased with their Prime Solutions Level I training experience and —after this introduction to Prime Solutions— had positive impressions of the program itself. Additionally, 96% of attendees found the training either “Interesting” or “Totally interesting.”
